A statement from the EASI Board of Directors:

Since the COVID-19 pandemic, there has been a rise in anti-Asian sentiment among our Asian communities, and our elders are especially vulnerable to these vicious attacks. At EASI, we condemn such actions and recognize the ongoing struggles of our Asian elders.

We encourage our Fresno community to find meaningful ways to discourage such activities and seek restorative and collective means of justice for all our elders' well-being.

Please visit our website at www.easi-fresno.org to learn more about ways you can support our elders from all forms of ethnic abuses.
